Supply List:

- 1 Large marshmallow
- 8 toothpicks
- 16 mini marshmallows

Marshmallow Snowflakes

Instructions:

Start With The Center. For each snowflake, choose a large marshmallow to act as the center of the snowflake. Hold the large marshmallow so that the circular side (the top or bottom) faces you. (This makes for a prettier snowflake.)

Build The Spokes. Insert 6-8 toothpicks around the circle (I like to do 8. I place 4 toothpicks in the center marshmallow like the points of a compass, then fill in the gaps with another toothpick in between each for a total of 8.)

Decorate! Then, decorate each toothpick with mini marshmallows to make your snowflake design! Again, I recommend holding the marshmallows so the circular side faces you for the prettiest effect. For the sample snowflake, I put 2 mini marshmallows on each toothpick, but you can create any design you like!)

Serve with your favorite cup of hot chocolate, or store in a zip-top bag until you're ready to use them. You can also hang them with string for a fun decoration!
